For 10/600642, please search:

1. Each of seq id no 1, 2, 5, 6, and 10 in uspat and pgpubs, genseq, genembl, est databases.
2. Please do a score/length search with length at least 15 and score>70 for seq id no 1 and 2 in uspat and pgpubs, genseq, genembl.

Please print out results first page through end of results table. I can pick up the rest from score, but please make sure all relevant hits fit into SCORE for the score/length search, and if not, I'll gladly have these on disk. THANKS.

Subject: please approve rush search

Hi Jeff,

Please approve this rush of the interference files- it turns out I can allow this case but I didn't get an interference search (I was preparing for a first action).

thanks.

for 10/600642, please search in PENDING DATABASES only (not pbpub or issued, I have these searches), seq id no 1, seq id no 2, seq id no 5 and seq id no 6.

THANKS.
